WORKSHOP DATE & TENTATIVE LOCATION

Saturday, April 20th, University of Oklahoma
9th floor of Dale Tower
453 W Lindsey St, Norman, OK 73019

ABOUT OK JDM

For more than 25 years, the annual OK JDM workshop has provided a friendly, multidisciplinary forum facilitating collaborative *Decision Science and Human Performance* research and development. The one-day workshop historically takes place either in Kansas or Oklahoma, bringing together diverse practitioners, professionals, and students from the broader region (e.g., Texas, New Mexico, Nebraska, Louisiana). The workshop is open to all interested participants and qualified presenters. Although there is no set format, in recent years the workshop has included 10-20 research presentations, a research poster session, a panel discussion, and an informal social event after the conference. Registration is free. Lunch and simple refreshments (including coffee) will be provided by sponsors.

ORGANIZING COMMITTEE

Edward T. Cokely, University of Oklahoma
 Adam Feltz, University of Oklahoma
 Scott Gronlund, University of Oklahoma
 Robert Hamm, University of Oklahoma Health Science Campus
 Gary Brase, Kansas State University
 Michael Young, Kansas State University
 Tim Pleskac, University of Kansas
 Vincent T. Ybarra, University of Oklahoma [Grad Student Representative]

SPONSORS

- **RiskLiteracy.org** – Building Collaborative Science for Informed Decision Making
- **The National Institute for Risk & Resilience**
- **University of Oklahoma Human Factors and Ergonomic Society Student Chapter**

STUDENT RESEARCH PRIZE

This year a student research award will be granted to recognize high-quality, ambitious research by a graduate student presenter. Evaluation for the award is based on national standards (see <http://www.sjdm.org/awards/studentposter.pdf>).
